THE GREAT NEWSLETTER ITSELF!

GREETINGS FROM THE SPACE LOUNGE

Recently John Howling Mouse and I found ourselves at the 44th World Science Fiction Convention in Atlanta, Ga. (where the Monkeyboys make that drink above drinks Coca-Cola). The Monkeyboys had invited us along to be a part of their "program". Ha! We showed them. We had no program.

We did however, have lots of snotts, flyers and junk to litter the place up with. We found out quickly that we didn't have to. Many of these "fen" are obviously lectroids that just don't know it yet. The place was cluttered up fairly well without us. So we took it upon ourselves to educate them and, with the aid of the Flying Fish, help them to admit their Lectroidity.

We had arranged to play host to a party/meeting on Saturday night in the hotel's Milan room. The evening came off well as we (John Crashlanding included) stood around and passed on the words and teachings of Lord John Whorfin to anyone who attended our glorious gathering. Many flyers left our hands before the evening was over, as did many snotts, twinkies and batteries.

Every night and through the day these so called Monkeyboys had endless parties, especially a group bidding to host the convention for 1988. We drifted into their party and if that was any kind of indication, New Orleans is full of comrades.

Another party was hosted by the BBI Mid-Miami squad. These Monkeyboys also show promise as Lectroids or Lectroid apprentices. Even though they knew we were not of their kind they looked the other way when we wandered into their party, smoked up the place and devoured all the cheese nips. They even adopted a snott (they thought it was cute). Any comrades near Miami are encouraged to keep us informed on the doings of this group and their progress into Lectroidity.

As an added bonus we enjoyed finally being able to meet those of you who attended the Con: Johns French Fry, Beanpole and Picknchoose.

(We stayed in the hotel just down the hall from what they called a Spacelounge. We never saw any other aliens but thought it a fun concept anyway.)

Dealing snotts to the world,

J. Nevermore

JOHN, IT'S FOR YOU.

I got the shock of my life on August 25th, when I recieved an unexpected phone call from none other than our exalted leader's alter ego, John Lithgow.

Finding a free moment between completing three months of filming as "George" in Steven Spielberg's upcoming Harry and the Hendersons and rushing off to star in "The Front Page" at the Lincoln Center, Lord John called to sat that he's very flattered by what we're doing with the League and to "Carry on." So we're finally "official"!

When I asked Lithgow if he could reveal anything about HARRY he said, "I can't tell you anything because you'd print it in one of your newsletters!" About "Harry" himself, a creature created by special makeup effects master Rick Baker, Lithgow could only say, "He's bigger than I am."

-John Howling Mouse,
Communications Liason

CONGRATULATIONS JOHN!!

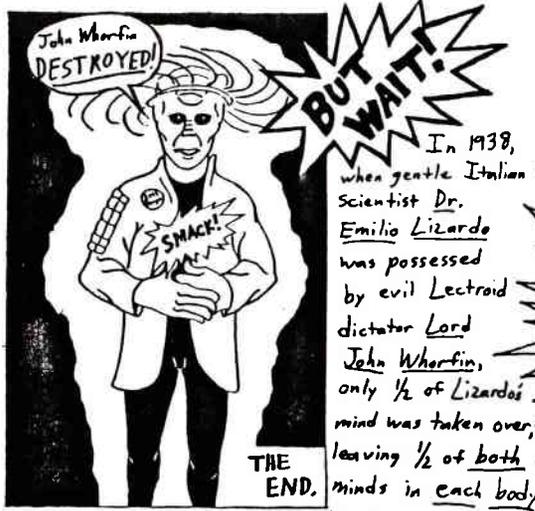

The League would like to offer it's congratulations to John Lithgow on receiving The Emmy Award for Guest Performer in a Dramatic Series for his performance in "The Doll" episode of Amazing Stories. We congratulate him also on a second nomination, which he did not win, for Lead Actor in a Miniseries or Special for Hallmark Hall of Fame's "Resting Place".

On Aug. 1, John quacked it up at the HOWARD THE DUCK premiere and was also guest at the Sept. 20 Aides Project Los Angeles benefit. He will also be starring as Walter Burns in "The Front Page" at the Vivian Beaumont theatre, Lincoln Center, Oct. 31 - Jan. 4

ATTENTION SNOTT WATCHERS

Snottobon Society Announcement

Our baby snotts need good homes. The herd is expanding faster than we can feed them and we need help clearing the nest. Send \$4.50 per snott to the Lectroid Lodge - 2610 Whitis Austin, Tx. 78705 (Snotts are handmade slush-cast latex, painted in brilliant living color, about 5" long.) Please make checks payable to April Anderson.

THE END.

BUT WAIT!

In 1939, when gentle Italian Scientist Dr. Emilio Lizardo was possessed by evil Lectroid dictator Lord John Whorfin, only 1/2 of Lizardo's mind was taken over, leaving 1/2 of both minds in each body!

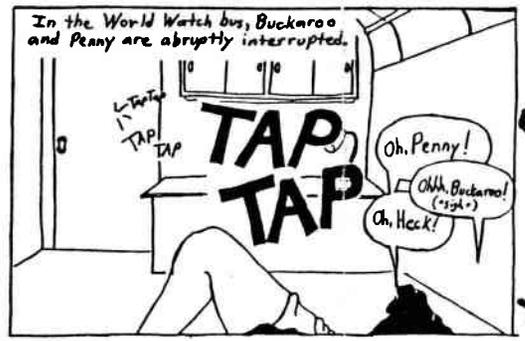

We know what happened to one body— What about the other one...?

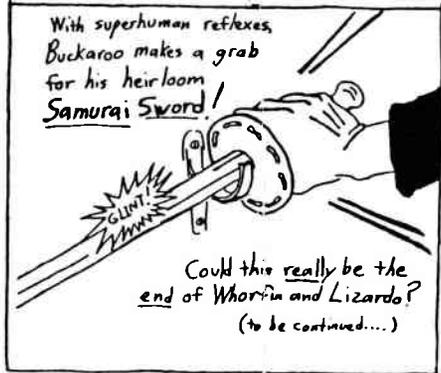

Back in the 8th Dimension, half of Dr. Lizardo's brilliant mind found itself sharing a hideout: Lectroid body with the vicious remainder of Lord Whorfin's mind! There the minds struggled with each other for the next 46 years....

His sudden arrival on Earth after 46 years in the 8th Dimension, plus having only half a mind of his own, has left Lizardo quite disoriented.

In the World Watch bus, Buckaroo and Penny are abruptly interrupted.

Could this really be the end of Whorfin and Lizardo? (to be continued....)

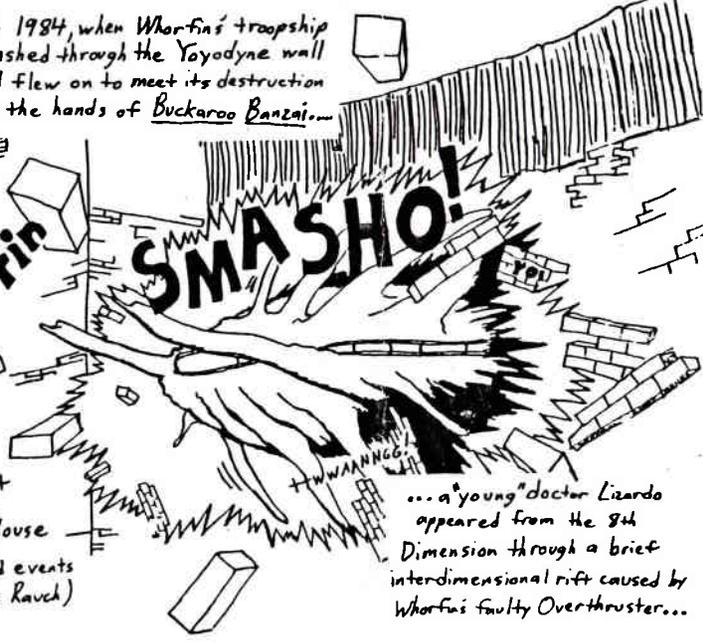

of course Lizardo only looks like Lizardo — his body is actually that of Lectroid John Whorfin, but the hypnotic effect of the lectroid electro-chemical brainwashing makes him appear human. And the remainder of Whorfin's mind craftily lies low....

Buckaroo opens the door to see Hikita apparently in the clutches of a huge, monstrous Lectroid!

For Emilio Lizardo

By John Gaunt

For Emilio Lizardo,
The Oscillation Overthruster
Has never lost it's luster.
Since 1938,
Men bad and great
Have tried to create
HB 88.
Not one succeeded,
Until Banzai repeated
The experiment with the Jet Car
Which made him go far.

In the Trenton Home for the criminally

Whorfin saw a way to end his pain.
He got on the line
To alert Yoyodyne
That the Panther ship would fly,
Thanks to Banzai!
With some covert help from Hanoi Xan,
Whorfin was able to implement his plan,
A great battle was fought
On the Propulsion System's lot.
But no one could stop Lord Whorfin's plot.

He lives today
In the streets of L.A.
Scheming Banzai's doom,
Which we all hope comes soon!

Fire up for APATHY!!

Lectroid Cheer

WE HIDE, THEY SEEK,
WE ARE STRONG AND THEY ARE WEAK,
YEA LECTROIDS!

--John Washwear from the speech by Lord Whorfin

The Lectroid Creed

By John Gaunt

We lectroids; tall and thin,
Led by John Whorfin.
Armed with our slinkies,
And fortified by Twinkies,
We'll destroy the Monkeyboys.
Then chow down at Roy's.
Refrain-We'll conquer the Universe!

We must reverse,
the deeds of the Adders,
Nothing else matters!

We'll bite off their heads,
We are the Reds!
Taking the Panther ship,
insane,
We'll make our trip,
Back to Planet 10,
Back in power again!

Repeat Refrain

(Creed sung to whatever you feel like)

Volts

By John Nevermore

Batteries are a pick me up,
something to pass the time.
Get a quick high
while you wait,
whatever brand you like.
Energizers, Duracell,
and Ray-o-vac.
Pop a rechargeable,
a Memorex or Radio Shack.

But they are habit forming,
soon you will need more and more
Slowly the tolerance
to acid builds inside .
AAA to AA,
C cell and D.
from 9 volt to 12.
and on to car batteries.
